TurnKey Internet Adds TurnKey Website – Next Generation Website Builder Service

FOR IMMEDIATE RELEASE

Albany, NY, October 5 , 2010—Web solutions provider TurnKey Internet today announced the launch of TurnKey Website, a next-generation website builder tool featuring 2,000+ designs and complete, ready-to-use templates. TurnKey Website is a software-as-a-service cloud solution that allows businesses to create professional websites at minimal cost.

TurnKey Website is designed for ease-of-use, and features a large free web application gallery including blogging, SitePal, Image Gallery, Guestbook, forums, file downloads, flash intro pages and more. TurnKey Website also includes detailed web analytic reports and professional email with advanced spam and antivirus features. Complete video tutorials provide step-by-step instruction, making TurnKey Website accessible to all non-technically oriented business professionals.

"One of the most important elements for business success is business image," said Adam Wills, President and CEO of TurnKey Internet. "At the same time, many business owners don't want to turn over their business image to a third party design service that may not understand their aesthetic and goals. We are excited to offer our clients this all-in-one professional tool that puts the design and administrative control in the hands of the business owner, and saves them thousands of dollars in the process."

This complete software-as-a-service business solution comes on the heels of TurnKeyMail, TurnKey Internet's next-generation email and connectivity tool; email marketing software, TurnKey Newsletter; and TurnKey Vault NAS, TurnKey Internet's cloud storage solution.
