TurnKey Internet, Inc Launches Black Friday 2014 Deals for The Cloud

LATHAM, NEW YORK (November 24, 2014) – Sustainable IT solutions provider TurnKey Internet, Inc. announced today the launch of their Black Friday Deals offering some of the best Black Friday web hosting and cloud services deals for 2014.

TurnKey Internet is known for running its eagerly-awaited, industry-leading Black Friday specials, and this year is no different. TurnKey Internet is offering 80% off for the life of nearly every product they offer – cloud servers, dedicated servers, virtual private servers, cPanel web hosting, Microsoft Windows web hosting, enterprise colocation services, SEO optimized web hosting, and much more. More information can be found at https://www.turnkeyinternet.net/blackfriday.

"Last year's Black Friday promotion exceeded all expectations- we couldn't wait for our 2014 Black Friday promotion to kick off this year." remarked Adam Wills, CEO of TurnKey Internet. "We have been receiving phone calls, inquiries and planning this launch since the summer, and I am happy we are offering deals like these to our valued clients and potential new clients across the globe. We want to continue to exceed expectations of those shopping our Black Friday sale – and this year we have combined our best offers and lifetime discounts ever, with all new amazing enterprise grade cloud hosted services such as our all new Deca Core Cloud Virtual Servers, and all new SEO Optimized cPanel hosting services."

Earlier this month TurnKey released it's all new enterprise-class cloud server platform powered by Intel's E5-2650 v3 Deca-Core Multi-CPU Processor technology offering virtual servers with up to 40 cpu cores with un-metered gigabit bandwidth with native IPv6 support – all available via the Black Friday promotion.
